DEAFNESS CANNOT BE CURED by local applications as they cannot reach the disc a diportion of the ear. There is only one way to cure Deafness, and that is by constitution in remedies. Deafness is caused by an infla acid condition of the muccar lining of the Eustaman Tube. When this tabe gets inflame you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the muccous surfaces.
